

# List

---

## Possibilities

- You can change all colors in xml file (**xml/configuration\_list.xml**)
  - You can perform redirecting to the menu element
- 

**Redirect** (example – xml/list1.xml)

### 1 way

**337 <== number id of the menu element in the file "xml/menuPrimary.xml"**

`<item picsmall="image_list/1_.jpg" redirect_to_menu_id="337">`

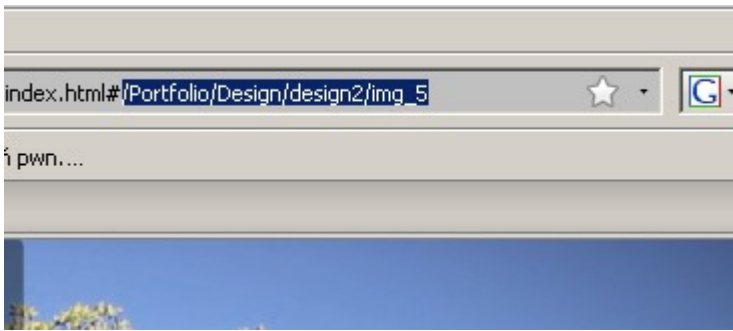

`<intro><![CDATA[<body><head_newsy>Redirect to template gallery (click back button in browser to come back here )</head_newsy><body><br>Morbi consectetur mollis leo. Donec purus diam,imperdiet ut, lobortis id, porttitor quis, augue.Suspendisse a dui vitae ligula pretium convallis.Suspendisse a orci end</body>]]>`

`</intro>`

`</item>`

It is possible to hide menu elements in the file "xml/menuPrimary.xml" (visible parameter - watch the menu.pdf file) To hidden menu elements it is possible to redirect itself.

## 2 way

### **/Portfolio/Design/design2/img\_5 <== link around browser**

```
<item picsmall="image_list/1_.jpg" redirect_SwfAddress="/Portfolio/Design/design2/img_5">
<intro><![CDATA[<body><head_newsy>Redirect to single image/move in gallery
</head_newsy><body><br>Morbi consectetur mollis leo. Donec purus diam, imperdiet ut, lobortis id, porttitor
quis, augue. Suspendisse a dui vitae ligula pretium convallis. Suspendisse a orci end</body>]]>
</intro>
</item>
```

## 3 way

### **http://flashden.net - url adress**

**\_blank - window ( \_self, \_blank .....etc)**

```
<item picsmall="image_list/5_.jpg" redirect_to_url="http://flashden.net,_blank">
<intro><![CDATA[<body><head_newsy>Redirect URL ( _blank)</head_newsy><body><br>Morbi consectetur
mollis leo. Donec purus diam, imperdiet ut, lobortis id, porttitor quis, augue. Suspendisse a dui vitae ligula
pretium convallis. Suspendisse a orci end</body>]]>
</intro>
</item>
```

## Date menu (xml/menuPrimary.xml)

**id** - unique id ( every position must of crumpling unique number of the ides )

**url\_config** – pathway for configuration menu

**label** - position menu name

**template** – template type ( text ,gallery, form, book,news, slider,list )

**xml** – date for template

**url** – pathway for redirect

**window** – window for redirect ( \_blank, \_self, etc....)

**visible** - when (visible = false) the position is invisible.

**attributes for start site (optional)**

```
<?xml version="1.0" ?>
```

```
<menuPrimary id="1" url_config="xml/configuration_menu.xml" label="home" template="newsy"  
xml="xml/newsy1.xml">
```

```
  <item id="2" label="Newsy">
```

```
    <item id="3" label="newsy 1" template="newsy" xml="xml/newsy1.xml"/>
```

```
    <item id="4" label="newsy 2" template="newsy" xml="xml/newsy2.xml"/>
```

```
    <item id="5" label="newsy 3" visible="false" template="newsy" xml="xml/newsy3.xml"/>
```

```
  </item>
```

```
  <item id="6" label="Text">
```

```
    <item id="7" label="text 1" template="text" xml="xml/text1.xml" />
```

```
    <item id="8" label="text 2" template="text" xml="xml/text2.xml"/>
```

```
    <item id="9" label="text 3" template="text" xml="xml/text3.xml"/>
```

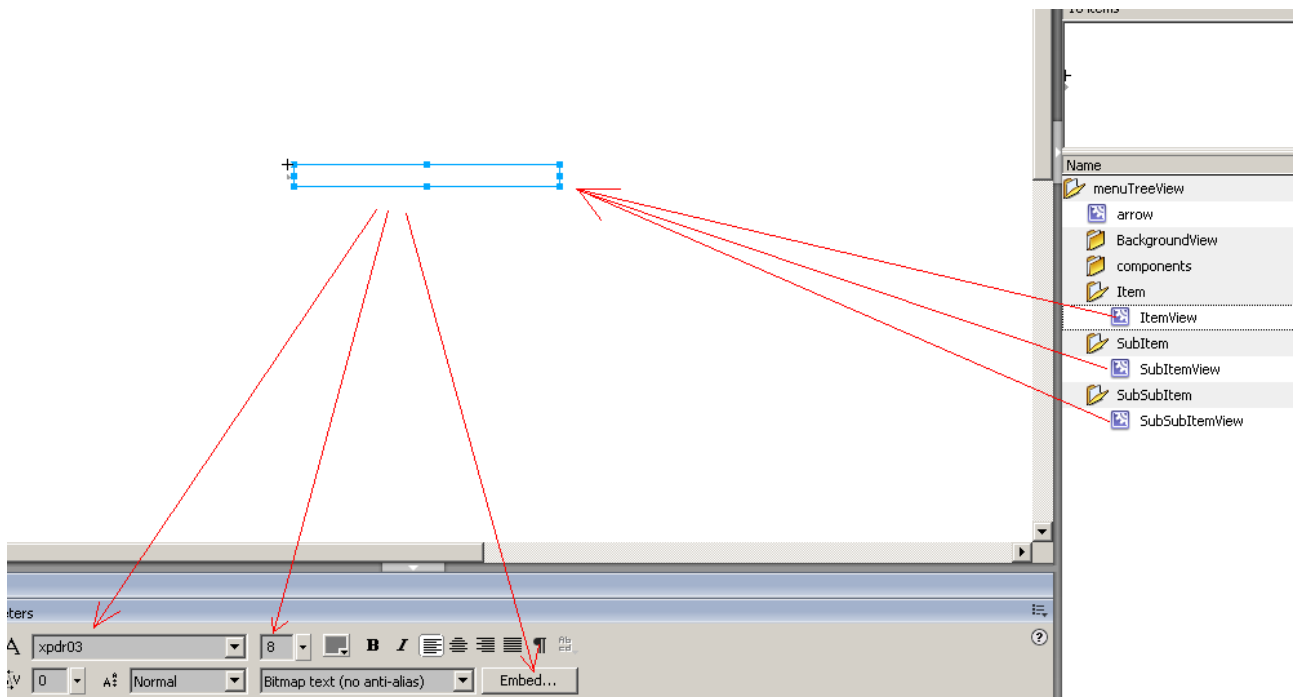

```
  </item>
```

```
<item id="231" label="Link" url="http://www.google.com" window="_blank"/>
```

```
<item id="57" label="Your swf" template="your_swf.swf" xml=""/>
```

## Change font size and font face and embed letters

### Menu Item

### **Tween module.**

You must install the module lacootween behind the help of the program "Extension Macromedia Manager". To unpack lacootween.zip and to start the file "MovieClipTween120.mxp". The installation is needed only at opening FLA files.
