Change the colors (only for beginners)

How to You will find in lot of layers a little setting color box. She will permit you to choose your color when you click on it.

Or in the other layers, Go to Layer > Layer Styles > Color overlay and choose your color.

Colors used

In this template the main colors are:

- # ffffff
- # 009de5
- #D1D1D1
- #555555
- # 00aaff

In the green template:

- # 00ab0c
- # 00ce0e

In the orange template:

- # ff4000

In the grey template add:

- # 9d9d9d
- # a6a6a6

For display the colors -> <http://www.colorpicker.com/>

Display the spacing

This template is build with 960 grid system (<http://960.gs/>) for the most part of the spacing. You can display it if you enabled the layers group named “spacing”.

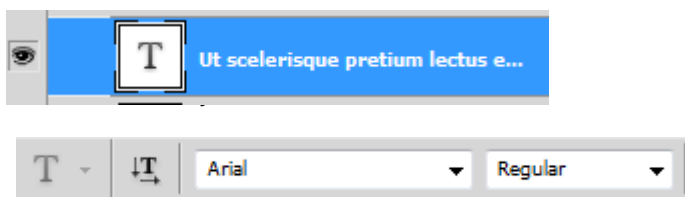

About the particular spacing you can display the Photoshop guides:

On Windows: Ctrl + “

On mac: Ctrl + :

How to change the fonts (only for beginners)

Click on the text layers

Fonts

Elegance's cloud used Arial, New-Cycle, Droid sans and Easy Speech. All the fonts are included in the main files (resources -> fonts). But you can download New-Cycle here:
