

# Book

---

## Possibilities

- Fast loading (sheet of papers are loading only the ones which are visible)
  - Unlike other products, book does not store all pages in memory
  - You can add unlimited pages in xml file
  - You can change page book size and frame size in xml file
  - You can change all colors book ( color button prev and next, color frame,color page number ,color sheet etc) in xml file
  - You can add logo and contact button
  - The project is using from conventional tween which is in flash 8 (Tween Class)
  - You can change all colors player mp3 in xml file
  - You can add unlimited mp3 files
  - You can enabled and disabled player mp3,logo and contact button
  - You can load the any background (swf file,jpg ,png .... etc - change in xml file )
  - You can change first visible page
  - You can enabled/disabled number page (in sheet)
  - You can enabled/disabled menedzer number page (up book)
- 

## Book (configuration and date)

Date file: (xml/book.xml)

```
<?xml version="1.0" ?>
<pages url_config="xml/configuration_book.xml">
<item thumb="pages/1.jpg"/>
<item thumb="pages/2.jpg"/>
<item thumb="pages/3.jpg"/>
<item thumb="pages/4.jpg"/>
<item thumb="pages/5.jpg"/>
<item thumb="pages/6.jpg"/>
<item thumb="pages/7.jpg"/>
<item thumb="pages/8.jpg"/>
<item thumb="pages/9.jpg"/>
<item thumb="pages/10.jpg"/>
<item thumb="pages/11.swf"/>
<item thumb="pages/12.jpg"/>
</pages>
```

**Pathway for configuration book.**

**Pathway for image (swf,jpg,png etc....)**

### WARNING:

The number of sides must be even. ( example 12 pages , 8 pages , 4 pages etc )
