Mp3Player

Possibilities

- you can add unlimited mp3
- autoPlay enabled or disabled in configuration file (xml/configuration.xml)
- you can adjust the first volume in configuration file (xml/configuration.xml)
- you can add title for mp3 file in xml file

You can add unlimited mp3

You can add unlimited amount of mp3 files in the xml file

Example File: **xml/mp3.xml :**

```
<?xml version="1.0" ?>

<date url_config="xml/configuration.xml">

<item path="mp3/Freedom.mp3">
<![CDATA[<FONT COLOR="#999999">Title <b>bold</b> html format Title Mp3 1</FONT>]]>
</item>

<item path="mp3/HalfSpeed.mp3">
<![CDATA[<FONT COLOR="#999999">Title <b>bold</b> html format Lorem Ipsum Lorem Ipsum Lorem
Ipsum 2</FONT>]]>
</item>

<item path="mp3/StompBox.mp3">
<![CDATA[]]>
</item>

<item path="mp3/VanessasDub.mp3">
<![CDATA[<FONT COLOR="#999999">Title <b>bold</b> html format Title Mp3 4</FONT>]]>
</item>

</date>
```

attributes:
path – pathway for mp3 files
CDATA – description for mp3 files

The ledge with the description won't appear:

```
<item path="mp3/StompBox.mp3">
<![CDATA[]]>
</item>
```

The ledge with the description will appear:
<item path="mp3/VanessasDub.mp3">
<![CDATA[<FONT COLOR="#999999">Title bold html format Title Mp3 4</FONT>]]>
</item>

You can use html formating which flash is supporting.

Pathway for configuration file (attributes url_config in xml/mp3.xml)

Example file xml/mp3.xml:

<?xml version="1.0" ?>

<date **url_config="xml/configuration.xml"**>
<item path="mp3/Freedom.mp3">
<![CDATA[<FONT COLOR="#999999">Title bold html format Title Mp3 1</FONT>]]>
</item>

<item path="mp3/HalfSpeed.mp3">
<![CDATA[<FONT COLOR="#999999">Title bold html format Lorem Ipsum Lorem Ipsum Lorem Ipsum 2</FONT>]]>
</item>

<item path="mp3/StompBox.mp3">
<![CDATA[]]>
</item>

<item path="mp3/VanessasDub.mp3">
<![CDATA[<FONT COLOR="#999999">Title bold html format Title Mp3 4</FONT>]]>
</item>

</date>
